**Subject:** REJECT BILL 650

**To Connecticut Legislators:**

**I respectfully request you to reject Bill 650 which has the potential to deprive citizens of their rights with an unacceptably low evidentiary standard. The United States holds representation as an important cornerstone of our Republic. It is not in this spirit to deprive someone of their property based solely on an unsubstantiated accusation. Regardless of your stance on firearms, confiscation of property without due process is wrong and can open the door for other constitutional violations. In summary, please reject Bill 650 thank you for your consideration.**

**Sincerely,**
